

JAGADEESWAR REDDY

Supply Chain Analyst | Demand Planning & Inventory Optimization

France | +33 7 48 52 04 90 | jagadeeswarreddykannapu@gmail.com | <https://www.linkedin.com/in/jagadeeswar-kannam/>

PROFESSIONAL SUMMARY

Supply Chain Analyst with 2 years of operational and analytics experience across demand forecasting, inventory optimization, and procurement reporting. Completed MSc in Purchasing & Supply Chain Management at Montpellier Business School (2024–2026). Proven ability to build Power BI dashboards, automate reporting pipelines with Python and SQL, and apply EOQ/safety-stock models to reduce holding costs.

TECHNICAL SKILLS

Supply Chain & Operations: Demand Forecasting, Inventory Management (EOQ/Safety Stock), S&OP, MRP, Procurement & Vendor Analysis, Logistics Coordination, Working Capital Analysis

Analytics & BI: Python (Pandas, NumPy, Scikit-learn), SQL (MySQL, PostgreSQL), Power BI, Tableau, Advanced Excel (PivotTables, Power Query)

Tools & Methods: ERP Systems, Power Apps, n8n, Power Automate, Linear Programming, Regression Analysis, Lean / Continuous Improvement, IBM SPSS

PROFESSIONAL EXPERIENCE

Business Analyst (Academic Internship) | ICodeTest, Hyderabad, India

Apr 2025 – Jul 2025

- Conducted detailed supplier analysis across 100+ vendor prospects; built segmentation model reducing vendor shortlisting time by 30%
- Tracked 12 KPIs across sales-to-delivery funnel using SQL and Excel; identified 3 bottlenecks improving order fulfilment visibility.
- Produced weekly supply chain performance dashboards in Power BI for management review; proposed 2 Power Automate automation opportunities.

Accomplishment: Enabled analytics-based operational decision-making by combining supplier analytics, KPI tracking, and business intelligence reporting, presenting insights to 50+ stakeholders.

Associate Data Analyst | Wipro Limited, Hyderabad, India

Jul 2022 – Jun 2024

- Built dashboards tracking 15+ supply chain KPIs (inventory turnover, fill rate, OTIF, supplier SLA) for 10+ stakeholders, cutting reporting cycle time by 40%.
- Extracted and transformed 50,000+ ERP/CRM records using SQL and Python (Pandas); automated data quality checks, reducing manual errors by 35%.
- Standardized reporting templates across 3 business units, presenting workflows to teams and saving 8 analyst hours/week through Python and Power Automate automation.

Accomplishment: Improved data reliability and reporting efficiency by delivering scalable analytics and automation solutions.

KEY PROJECTS

AI Supply Chain Control Tower

n8n, JavaScript, Google Sheets, Power BI, GitHub

- Built an AI-powered Supply Chain Control Tower automating 7 workflows (inventory, supplier risk, procurement, warehouse, demand, logistics, executive reporting) using n8n and JavaScript.
- Automated real-time monitoring of 8 KPIs (inventory turnover, DIO, days-to-stockout, reorder quantity, inventory value at risk, supplier risk score, demand forecast, transportation status) with Power BI dashboards and automated email alerts.

NovexAI – Predictive Logistics Control Tower

Python, Pandas, Scikit-learn, Power BI

- Built Random Forest delay prediction model on 10,000+ shipment records (84% accuracy); deployed Power BI dashboard reducing simulated late deliveries by 18%.

Inventory Optimization & Demand Forecasting Model

Python (Pandas, NumPy), SQL, Linear Programming, Excel

- Optimized EOQ, safety stock, and reorder points via time-series forecasting and linear programming -cutting modelled holding costs by 22% at 97.5% service level.

EDUCATION

MSc Purchasing & Supply Chain Management (DESSMO)

2024 – 2026

MBS School of Business, France | AACSB & EQUIS accredited

Modules: Strategic Sourcing, Demand Planning, Inventory Management, Logistics & Distribution, Financial Analysis, S&OP

Thesis: The Impact of Inventory Management Efficiency on Working Capital and Firm Performance

Bachelor of Commerce in Computer Applications | Tapasya Degree College, Hyderabad, India

2018 – 2022

CERTIFICATIONS

- Microsoft Certified: Power Platform Fundamentals (PL-900)
- Microsoft Data Analysis with SQL, Excel & Power BI Specialization
- Unilever Supply Chain Data Analyst Professional Certificate
